Administrative Procedure - Early Graduation

A student completing the required credits for graduation may elect to graduate at the end of the summer, fall or winter semester.

1. Students anticipating early graduation must complete an application form and have it approved one semester prior to the intended graduation.
2. Grades received from credit courses in Kankakee Community College's Continuing Education division will be recorded on a student's permanent record and may be applied to make up credit, but will not accelerate graduation.
3. Students who secure approval for early graduation may return and participate in June commencement exercises, or may receive their diploma "in absentia."
4. Students must complete a minimum of one complete semester of residency at Kankakee High School to be eligible for early graduation.

[June 12, 1989]
